EMPLOYEE GIFTS & PROMOTIONAL INCENTIVES

BETTER THAN GIVING REAL TURKEYS & HAMS

MORE CONVENIENT FOR THE EMPLOYER

- No need to worry about ordering, handling, storage, refrigeration or distribution of real turkeys or hams
- Simple paper certificate that is easy to handle, store, and distribute (may be handed out in pay envelopes)
- Only one business day lead time required, which would be impossible with large orders of turkeys or hams
- No food safety or liability concerns!
- We offer 30-day credit terms vs the 10-15 days common among meat and poultry suppliers
- **Substantial price advantage vs actual turkeys or hams:** During the holiday seasons, retail turkey and ham feature prices often drop 30% or more. Our \$15 certificate, for example could get a turkey 17-22lbs. The same turkey could cost you \$18-\$23 at wholesale prices. (Call us for current wholesale and retail price trends.)

MORE CONVENIENT FOR THE EMPLOYEE

- Good on ANY brand
- Good on any variety (fresh, frozen, whole, portions, sliced, etc.)
- Recipient selects the turkey or ham they prefer at the time and place that are most convenient

BETTER THAN RETAILER GIFT CARDS

TURKEYS & HAMS PROVIDE EMOTIONAL VALUE BEYOND THEIR DOLLAR VALUE

- More intimate: Personalized with your company name as the giver, and may be personalized with the name of the recipient (optional, no charge)
- Good at any supermarket, not just at the retailer who issues a gift card
- Your employees can pick the item they prefer, at the time and place that is most convenient for them!
- **Non-taxable to your employees:** Unlike retailer gift cards and many other gift certificates, our certificates when used as employee gifts may qualify as IRS "de minimis" fringe benefits, meaning they may not be taxable as income to the employee, may not need to be processed through payroll, and may be deductible by the employer as a business expense. (Consult your accountant or tax attorney to confirm how the de minimis exclusion may apply to your unique circumstances.)
